

PROCEDURE FOR ASH LIFTING FROM NTPC LTD. KAHALGAON

NTPC-Kahalgaon is having 2340MW capacity and generates 40 Lakhs tons of ash every year. Ash Utilization department of NTPC-Kahalgaon remains actively engaged to facilitate/maximize ash utilization.

Pond ash is available free of cost to manufacturers of clay-ash bricks, blocks and tiles, central and state road construction agencies, PWD and agencies engaged in backfilling, and also to individuals for low land filling etc from the ash pond which is easily approachable. To get pond ash, apply in prescribed format (**click here to download**) or in a white paper.

As per Gazette notification of Govt of India, at least 20% **dry fly ash** is always available on priority basis in free of cost from DAES situated within plant boundary for making of ash bricks, blocks and tiles on demand. Rest of the fly ash is sold to different ash based product manufacturers. To expedite the matter smoothly following documents are to be submitted in support of brick manufacturing setup.

- Valid consent order to operate from BSPCB
- Certification of Registration under industrial act
- Papers for purchase receipt bill / invoice of the brick manufacturing machine.
- Valid documents of electricity connection/alternative power supply arrangement
- Ownership documents of the plant/set up
- It is also necessary to mention the installed capacity of machine in number of bricks/day and requirement of ash per month to be allocated.

After submission of above cited documents and after readiness of plant in all aspect, site inspection will be carried out by NTPC officials prior to allocation of ash. NTPC is committed to issue fly ash within 14 days in every case after submission of application with proper documents.
